PROFESSIONAL SUMMARY

Computer Science & Engineering (Cyber Security) graduate with practical experience in Python, cybersecurity, cryptography, steganography, secure web application development, crime analytics, and IT support. Strong problem-solving skills with hands-on experience in security research and software development. Seeking an entry-level position in Cybersecurity or Software Development.

EDUCATIONAL QUALIFICATION

BTech CSE (Cyber Security)	Shri Ramswaroop Memorial University	7.16/10 CGPA	2022 – 2026
Intermediate	Lucknow Public School, Lucknow	85.4%	2021
High School	Seth AR Jaipuria School	81.5%	2019

TECHNICAL SKILLS

- **Programming:** Python, Django, DRF, Flask, React.js, SQL, C, C++, Batch-file
- **Web Technology:** CSS, HTML, Google Cloud
- **RDBMS:** Oracle, MySQL, PostgreSQL **Tools/IDE:** VS Code, Github, Excel, Word, PowerPoint
- **Cybersecurity Tools & Frameworks:** Burp Suite, MSF, Nmap, Wireshark, MITRE ATT&CK, Splunk
- **OS:** Windows, Kali, Parrot, Ubuntu Linux

CERTIFICATION

- **Python Programming –** issued by Udemy
- **Practical Cybersecurity for Cybersecurity Practitioners** – issued by NPTEL
- **Security Intelligence Engineer** – issued by IBM
- **Certified Social Engineering Defence Practitioner** – issued by The SecOps Group

PROJECTS

- **SentinAI: AI-Driven Predictive Policing System** *(Python, XGBoost, Scikit-learn, Pandas, Matplotlib)*
  - *Developed an AI-powered predictive policing system to analyze historical crime data and forecast crime hotspots using machine learning and geospatial intelligence.*
  - *Ensured compliance with the DPDP Act, AI governance principles, and the Information Technology Act during AI model development.*
- **Charge Mitra: an EV P2P Platform** *(Django DRF, REST API, Axios, React.js, OpenStreetMap)*
  - *Developed a peer-to-peer EV charging platform using Django REST Framework, React.js, Axios and OpenStreetMap.*
  - *Implemented location-based charger discovery and RESTful APIs for user interaction.*
- **Steganography Tool** *(Python, Pillow, Django, fernet library)*
  - *Built a web-based steganography application to securely hide and extract messages inside images using Python and Pillow.*
  - *Integrated Fernet encryption to enhance confidentiality before embedding.*

INTERNSHIPS

- **Information Technology Support Intern – Encardio Rite, Lucknow (July 2026 – Oct 2026)**
  Assisting in troubleshooting Windows systems, hardware, and network connectivity issues, including boot failures, display problems, IP conflicts, DHCP configuration, and Wi-Fi connectivity. Supporting the configuration and deployment of new workstations as part of day-to-day IT operations
- **Cyber Security Technology & Science Intern – Uttar Pradesh State Institute of Forensic Science, Lucknow (May 2026 – July 2026)**
  Researched AI-driven crime pattern analysis using geospatial intelligence, Python, and machine learning, while ensuring alignment with the DPDP Act, AI governance principles, and the Information Technology Act.
- **Cybersecurity Internship – AICTE & IBM-SkillsBuild (Jan 2025 – Feb 2025)**
  Completed hands-on training in steganography, network security fundamentals and Python-based security automation.

ACHIEVEMENTS

- **Ranked 1st** out of 50+ participants in **Bug Hunting** competition, Viveka Techfest 2025
- **Ranked 2nd** out of 110+ participants in **Cyber Hygiene** article writing competition in 2025
