PROFESSIONAL SUMMARY

Cyber Security undergraduate with hands-on experience in Python development, cryptography, steganography, crime analytics, geospatial intelligence, and secure web application development. Seeking entry-level opportunities in Cybersecurity, Digital Forensics, or Software Engineering.

EDUCATIONAL QUALIFICATION

- **BTech CSE (Cyber Security), 7.11/10 CGPA** (2022 – 2026)
Shri Ramswaroop Memorial University
- **12th PCM with Computer Science, 85.4%** (2021)
Lucknow Public School, Lucknow
- **10th - 81.5%** (2019)
Seth AR Jaipuria School, Ghaziabad

TECHNICAL SKILLS

- **Programming:** Python, Django, DRF, Flask, React.js, SQL, C, C++, Batch-file
- **Web Technology:** CSS, HTML
- **RDBMS:** Oracle, MySQL, PostgreSQL **Tools/IDE:** Visual Studio, Git
- **Cybersecurity Tools & Frameworks:** Burp Suite, MSF, Nmap, Wireshark, MITRE ATT&CK Framework
- **OS:** Windows, Kali, Parrot, Ubuntu Linux

CERTIFICATION

- **Python Programming** – issued by Udemy
- **Practical Cybersecurity for Cybersecurity Practitioners** – issued by NPTEL
- **Security Intelligence Engineer** – issued by IBM
- **Certified Social Engineering Defence Practitioner** – issued by The SecOps Group

PROJECTS

- **SentiniAI: AI-Driven Predictive Policing System** (*Python, XGBoost, Scikit-learn, Pandas, Matplotlib*)
 - Developed an AI-powered predictive policing system to analyze historical crime data and forecast crime hotspots using machine learning and geospatial intelligence.
 - Ensured compliance with the DPDP Act, AI governance principles, and the Information Technology Act during AI model development.
- **Charge Mitra: an EV P2P Platform** (*Django DRF, REST API, Axios, React.js, OpenStreetMap*)
 - Developed a peer-to-peer EV charging platform using Django REST Framework, React.js, Axios and OpenStreetMap.
 - Implemented location-based charger discovery and RESTful APIs for user interaction.
- **Steganography Tool** (*Python, Pillow, Django, fernet library*)
 - Built a web-based steganography application to securely hide and extract messages inside images using Python and Pillow.
 - Integrated Fernet encryption to enhance confidentiality before embedding.

INTERSHIPS

- **Cyber Security Technology & Science Intern – Uttar Pradesh State** (May 2026 – Jun 2026)
Institute of Forensic Science, Lucknow
Researched AI-driven crime pattern analysis using geospatial intelligence, Python, and machine learning, while ensuring alignment with the DPDP Act, AI governance principles, and the Information Technology Act.
- **Cybersecurity Internship – AICTE & IBM-SkillsBuild** (Jan 2025 – Feb 2025)
Completed hands-on training in steganography, network security fundamentals and Python-based security automation.
- **Cybersecurity & Ethical Hacking Intern – TechnoHacks Solutions** (Jun 2024 – Jul 2024)
Performed OSINT investigations, vulnerability assessment and penetration testing exercises using Kali Linux.

ACHIEVEMENTS

- **Ranked 1st** out of 50+ participants in **Bug Hunting** competition, Viveka Techfest 2025
- **Ranked 2nd** out of 110+ participants in **Cyber Hygiene** article writing competition in 2025
